PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in IT support, application support, full-stack web development, system administration and business process automation. Skilled in Next.js, React, TypeScript, Supabase, PostgreSQL, Python, networking and technical troubleshooting. Founder of FestEazy, a live event-management platform used by 50+ organizations.

TECHNICAL SKILLS

Development: JavaScript, TypeScript, Python, React.js, Next.js, HTML, CSS, Tailwind CSS

Backend & Databases: Supabase, PostgreSQL, Firebase, REST APIs

IT Support & Systems: Application Support, Network Administration, System Maintenance, Hardware/Software Support, Software Troubleshooting

Tools & Hardware: Git, GitHub, Vercel, Visual Studio Code, Arduino, Raspberry Pi

PROFESSIONAL EXPERIENCE

FestEazy

Founder & Full-Stack Developer | Jul 2026 - Present | festeazy.com

- Founded and developed a web-based event and competition management platform used by 50+ organizations.
- Built participant registration, programme management, judge scoring, live results, reporting, award management and QR-based access workflows.
- Developed responsive admin and public applications using Next.js, React, TypeScript, Tailwind CSS, Supabase and PostgreSQL.

Al Falaj Perfumes Industry LLC - Sharjah, UAE

IT Support & Production / Quality Operations | Sep 2023 - Present

- Manage IT systems, network administration, system maintenance and software troubleshooting, providing day-to-day technical support across operations.
- Implement digital solutions and internal systems to reduce manual workflows and improve operational efficiency.
- Support production and quality-control processes, inspections, documentation and operational coordination.

Emirates Institute of Finance (EIF) - UAE

IT Application Support Intern | 2025

- Supported users and business applications through troubleshooting, issue resolution and routine application support.
- Assisted with Moodle LMS administration and supported AWS EC2-based e-learning services.

Junkbot Robotics - Sharjah, UAE

STEM Trainer | Dec 2023 - Present

- Deliver hands-on training in robotics, Arduino and programming, guiding students through practical technical projects and workshops.

Du Telecom - Alo WiFi - Sharjah, UAE

IT Assistant | Dec 2023

- Assisted with IT troubleshooting, system maintenance and network installation/configuration.

SELECTED PROJECTS

AlFalaj Factory ERP - Under Development

Next.js | React | TypeScript | Supabase | PostgreSQL

- Developing an internal ERP for Al Falaj Perfumes covering raw materials, formulations, production, inventory, purchasing, sales, warehouse and quality-control workflows.

Perfume Smell Detection & Base Note Identification System

University Final-Year Project | Python | Arduino | Tkinter | PySerial | IoT

- Built an MQ-5 sensor and Arduino prototype with a Python/Tkinter interface for sensor acquisition, serial communication, real-time display and CSV data logging.

EDUCATION

BSc (Hons) Computer Science | University of West London | 2025

CERTIFICATIONS & ADDITIONAL INFORMATION

Certifications: Full Stack Web Development | Ethical Hacking

Additional: UAE Manual Driving Licence
